

Arrangement Worksheet 5A: Guide to Division

Write your thesis:

Write the counter-thesis (the position opposite to yours)

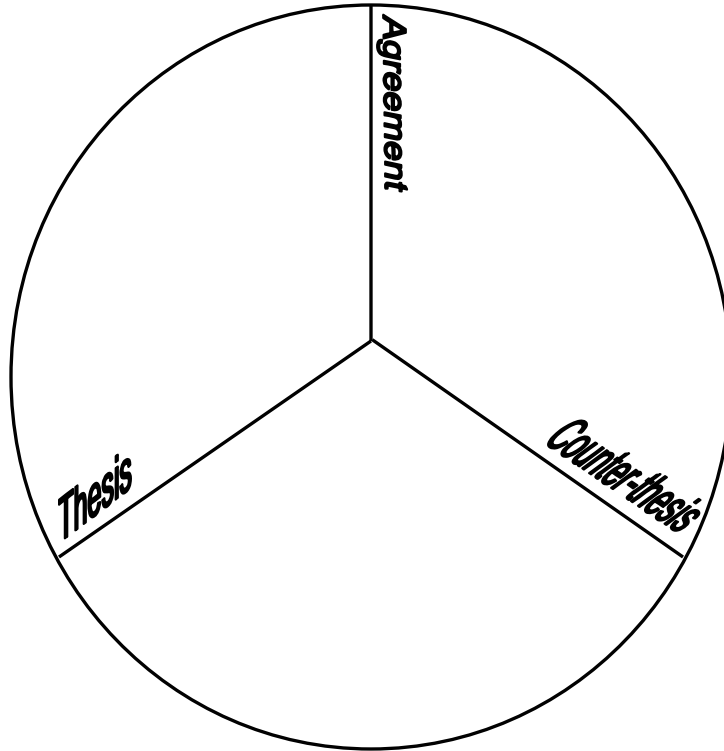

Compare the two statements and determine what both the thesis and counter-thesis agree on by answering the following questions:

1. What are the circumstances/ context of this disagreement?

2. What opinion or goal do the two sides share about the circumstances/ context?

3. State the agreement.

On the forked line below, write the thesis on the left leg and the counter-thesis on the right leg. On the vertical line, write the agreement.

Now move the Division to Arrangement Worksheet 5B, following the format you find there.
